Gil Costin, CEO  
Millennium Airship Inc.  
Bremerton National Airport  
PO Box 1972, (mail)  
Belfair Washington, USA 98528

Dear Mr. Costin,

WCA, Ltd., is the most well-known and highly regarded facilitator of partnerships among international freight forwarders today. Among all of our networks we cover more than 180 countries and more than 720 world cities and our more than 9000 members have seen substantial new business opportunities for the future. The opportunities we bring to our members are unprecedented and the member meetings we organize our famous for the considerable volume of business with which attendees are rewarded.

Your "SkyFreighter", hybrid heavy lift aircraft which has targeted primarily the freight industry with a broad variety of applications in other commercial fields has stimulated interest and excitement among many of our members.

As part of our broad mission to our member companies, we are constantly seeking new and productive ways to enhance and expand the capabilities, reach, and diversity of the projects our organization is involved with, thus providing a competitive edge for our members.

The Millennium Airship "SkyFreighter" program has definitely met those criteria as it addresses many complex logistics issues for not only off hub "project cargo" operations but regional freight logistics issues in servicing remote access locations. This unique aircraft also addresses security issues because of its point-to-point delivery capability, rather than portal-to-portal. We also recognize the huge benefit of this aircraft for disaster and humanitarian relief.

WCA, Ltd., networks and all its members would like to see your program come to fruition, and we will support your progress in any way possible. We also offer this as a powerful endorsement of the SkyFreighter program to our members and in adherence to our mission statement, we will encourage our individual members to explore collaboration and utilization options with you at their discretion

We look forward to a productive and fruitful relationship in this endeavor.

Best wishes

David L. Yokeum  
President.
